EXPERIENCE

Freelance

Product Designer (UX/UI)
& Front-end Developer

September 2024 – Present

Designing and building responsive digital experiences from concept to launch, combining UX/UI design with front-end implementation across Webflow, WordPress, Shopify and custom solutions.

KLM

Passenger Service Agent

September 2024 – Present

Handling passenger check-in, boarding and travel issues at Schiphol in a fast-paced international environment, collaborating with flight crews to support smooth and punctual departures.

Concept7

UX/UI Designer (Intern)

September 2023 – January 2024

Designed digital products, design systems and visual identities across multiple client projects. Built responsive Webflow websites and supported optimization through A/B testing, CRO, Google Analytics and Google Tag Manager.

De Voorhoede

Front-end Developer (Intern)

April 2022 – July 2022

Built reusable React and Next.js components for a large-scale auction platform, integrating DatoCMS through a headless, API-driven architecture and collaborating with designers and developers from design to production.

EDUCATION

Amsterdam University of Applied Sciences

2020 - 2024

Bachelor of Science, Communication & Multimedia Design
Focused on UX/UI design, digital product development and front-end development, combining user research, interaction design and prototyping with the technical skills to build and test digital products.

Fioretti College Lisse

Graduated in 2019

Senior General Secondary education, HAVO
